

Individuals with Disabilities Act IDEA

Part B

Grant Overview

IDEA makes available a free appropriate public education to eligible children with disabilities and ensures special education and related services. For district positioning, the strongest Panorama story is around early identification, general education supports, intervention coordination, progress monitoring, staff collaboration, and family communication that strengthen student support systems.

Alignment to Panorama Products

Panorama helps schools and districts strengthen early identification, MTSS, interventions, progress monitoring, staff collaboration, and the infrastructure needed for differentiated support.

Student Success

- Helps educators identify students who need additional support through unified academic, attendance, behavior, and life skills data
- Supports MTSS/RTI workflows including intervention planning, referrals, collaboration, and progress monitoring
- Gives school and district leaders better visibility into support patterns, intervention usage, and outcomes

Student Success

- Can help staff draft student support resources, family letters, and intervention plans grounded in district materials and student context
- Can reduce administrative time so staff can focus more directly on students

Solara with Class companion

- Can support differentiated assignments, feedback, and scaffolds for students who need more tailored instructional support
