

Title II, Part A

Supporting Effective Instruction

Grant Overview

Title II, Part A supports efforts to improve teacher, principal, and school leader effectiveness. Districts use these funds for professional learning, educator support, leadership development, data use, and other activities that strengthen instruction and improve student outcomes.

Alignment at a Glance

Panorama helps schools and districts improve teacher effectiveness through professional learning, educator support, responsible AI implementation, and data-informed practices that strengthen instruction and improve student outcomes

-  **Surveys & Engagement**
 - Teacher and Staff Surveys help leaders understand perceptions of professional learning, school climate, leadership, support, and educator experience
 - Benchmark and pulse surveys can help districts identify needs, target support, and monitor improvement over time

-  **Solara**
 - Supports educator efficiency with AI that helps staff quickly draft lesson-support resources, intervention plans and family communication
 - Provides leaders visibility into usage patterns and AI activity, helping districts build governance and support around responsible AI implementation

-  **Student Success**
 - Helps instructional and student services leaders use student-level and system-level data to guide coaching, resource decisions, and school improvement planning

-  **Solara with Class Companion**
 - Supports teacher practice by enabling differentiated assignments, rubric-aligned feedback, and faster insight into assignment-level student performance
