

# Panorama Pathways

Improve Graduation Rates  
and Student Achievement

Panorama Pathways is a leading on-time graduation tracking solution that ensures your students are ready for college, career, and life.

Combined with Panorama's early intervention and prevention support tools, only Panorama Pathways can help you achieve your district goals by supporting the whole student across academics, attendance, behavior, life skills, on-time graduation, career readiness, and CTE tracks.

**“Instead of hand-by-hand looking... we're able to much more quickly and efficiently address those transcripts. So it really is an efficiency booster for us in the school district.”**

— Richard Carranza, former Superintendent, Houston ISD (TX)

## Improve graduation rates

With early intervention and prevention tools, you can better guide students across academics, attendance, behavior, life skills, on-time graduation, career readiness, and CTE tracks for on-time graduation.

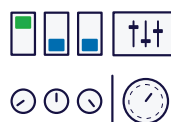

## Accelerate staff productivity

Say goodbye to manually reviewing thousands of data points. Panorama Pathways is a single platform for auditing, reporting, and correcting each student's progress toward on-time graduation. Easily review and resolve flagged errors on transcripts, schedules, assessments, and credits.

## Make decisions with actionable data

Gain a clear and detailed understanding of students' graduation, career, and life readiness. With district-, school-, and student-level data at your fingertips, make data-informed decisions and strategic plans that improve graduation rates and student outcomes.

## Prevent unnecessary risks

With a platform configured to your district, local, and state requirements, Panorama is your partner to define, map, and assign students to specific graduation, career, and life pathways. Rest assured of up-to-date insights with 20+ SIS and key assessment integrations.

# Support On-Time Graduation With Automated Tracking

## Gain critical insights with district, school, and student reporting

Easily monitor student progress and build strategic plans with district, school, and student reports detailing on-time graduation and scheduling errors.

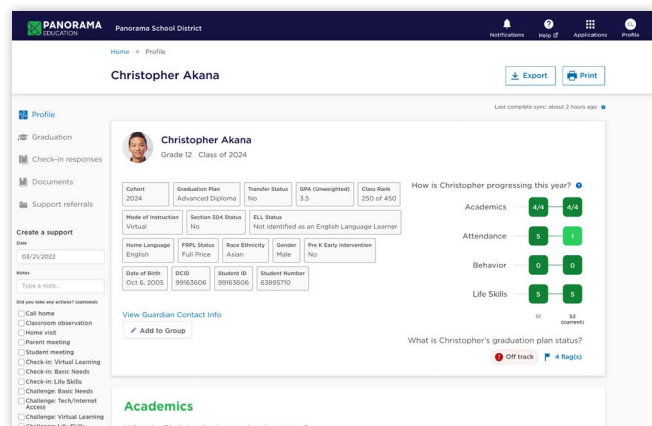

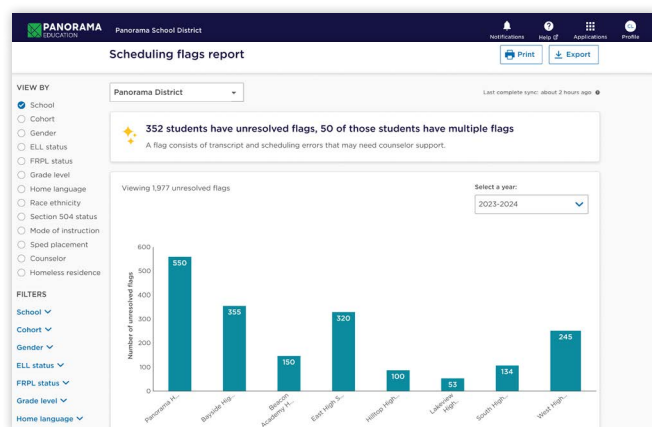

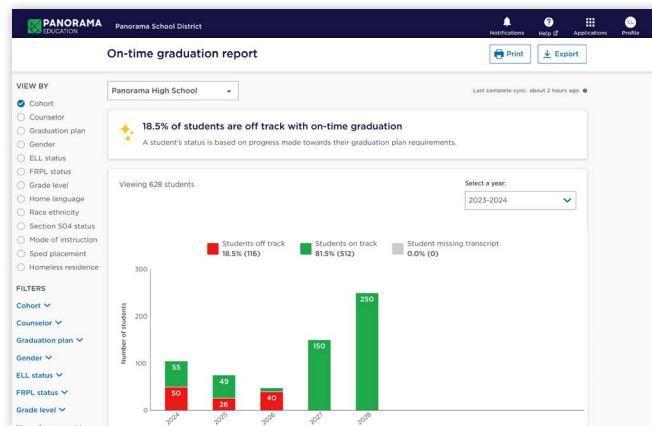

Understand district, school, and student-level graduation tracking and progress with Discover, a simple, natural language search prompt powered by Panorama AI. Pinpoint data related to graduation rates, error monitoring, CTE plans, and more. Filter data by criteria like counselors, ELL status, and more to identify trends, guide each student's unique journey, and drive student success.

## Increase efficiency with automated error reporting

Spend less time on paperwork and auditing student records. Panorama Pathways automatically detects discrepancies in transcripts, class schedules, and against your district's unique graduation requirements. Identify and support off-track students in real time with district-, school-, and student-level reports updated daily.

## Ensure accurate data at your fingertips

Centralize all your student data. Panorama Pathways integrates with 20+ student information systems and assessments so you can access up-to-date transcript data, schedules, and state-required assessment data daily.
